Alexandria, VA 22313-1450

Sir:

Listed below or on an attached Form PTO-1449 is information known to applicant(s). A copy of each listed publication and U.S. and foreign patent, except for pending but unpublished U.S. applications, is being submitted herewith, along with a concise explanation of information in a foreign language, if any, pursuant to 37 C.F.R. §1.97-1.98.

Applicants respectfully request that the information listed on the attached Form 1449 be considered by the Examiner and made of record in the above-identified application. The Examiner is requested to initial and return the enclosed Form 1449 substitute.

This statement is not intended to represent that a search has been made or that the information cited in the statement is, or is considered to be, material to patentability as defined in §1.56.

This statement is being filed after the mailing date of the notice of allowance under §1.311, but before payment of the issue fee; and the fee of \$180 under 37 CFR 1.17(p) is authorized in the accompanying transmittal.

Each of the documents listed on the attached Form 1449 substitute was cited in one or more related applications (applications claiming the benefit of Appl. No. 09/518,488 and examined by Examiner Tra). Applicants propose these documents for consideration not because they believe them to be material to patentability, but for completeness in cross-citation within the related applications. In a telephone interview with Examiner Tra, he indicated that he would consider these documents in an after-allowance IDS because they are already of record in related applications.
